Attachments: [redacted]_917_to_1002_Landscape_UK.pdf

Hi [redacted]

I hope this finds you well.

I wish to formally object to TP/ED/26/0104 and TP_ED_26_0341.

Much research has been done following the recent upload of documents and new important information has come to light which I and others believe has a crucial bearing on the application. Some of the errors and omissions are of the utmost seriousness.

I cannot see how a new planning application and an EIA are not now required by law.

I have, as usual, written up the objection as :

"Objection or area of objection"

"Why it matters, why it is a material consideration and why it is an objection OR why it demonstrates procedural unfairness or predetermination, and renders TP_ED_26_0341 or TP/ED/26/0104 unlawful"

And I quote the relevant legislation or guidance.

Please acknowledge receipt.

Please forward matters that demonstrate procedural unfairness or predetermination to the relevant EDC officer.

Once again, in the interests of information flow, I have copied [redacted] I am sure this will be of acute interest to [redacted] in the light of her recent reply t[redacted]and his subsequent questions.

I will also copy all [redacted]

You will see that we have now reached the staggering figure of 1000 rows.

How can one planning application produce so many issues?

[redacted]
