Subject: Planning Application- TP/ED/26/0104

In response to the renotification letter and further information sent in relation to the referenced Planning Application- TP/ED/26/0104.
Our original comments and objections still apply.
The anticipated increase in traffic is still unacceptable to the residents of Middlemuir Road and surrounding streets.
The proposed mitigation plans (traffic calming measures) will not deter drop offs, will detrimentally impact access to and from residential properties, and Middlemuir Road will remain as the principal route to access the school instead of the entrance from Initiative Road.
