Hi [redacted]

I hope this finds you well.

I wish to formally object to TP/ED/26/0104 and TP_ED_26_0341, objections 827 to 916.

Much new information has come to light via FOI/EIR requests and a huge amount of work by my colleagues and members of the public.

Most disappointingly some of this information has been *very* hard to obtain from your colleagues.

You will see that once again crucial matters seem to be being missed.

I have, as usual, written up the objection as :

"*Objection or area of objection*"

"*Why it matters, why it is a material consideration and why it is an objection OR why it demonstrates procedural unfairness or predetermination, and renders TP_ED_26_0341 or TP/ED/26/0104 unlawful*"

Please acknowledge receipt.

Once again, in the interests of information flow, I have copied AD and GL.
I urge [redacted] and [redacted] to pay close attention to these objections *and to the difficulty with which the information to formulate them was obtained from EDC*.

I understand that the application is being withdrawn, please advise how these and all previous objections and complaints will be treated.
