**Objective d)**

From August 2015 – August 2018 this department received 1 formal complaint in relation to children in on sales licensed premises. The department conducts daily inspections of on sales licensed premises to ensure full compliance with regards to children's access.

In relation to off sales premises two reviews have been made for failed test purchases during 2016 resulting in the permanent closure of one premises and a 6 month suspension of another. This action has had a material impact on alcohol potentially being made available to children or young people. In 2018 one further review is scheduled regarding an underage sale of alcohol to a child. The Licensing Board taking each case on merit delivered a range of sanctions on several other premises that were brought before it.

The department, in 2016 and 2017, also led on a large scale series of integrity tests to challenge licensed premises regarding their mandatory Challenge 25 policy. These policies are designed to protect children and young people and challenge rogue premises and were very successful on both fronts.
