Local Transport Strategy

The Transport Options Report is the first step in refreshing East Dunbartonshire Council's Local Transport Strategy. The Transport Options Report has been developed on an evidence base including policy, transport data, route corridor studies and community consultation. The full process of refreshing the Local Transport Strategy is shown below:

Consultation

As the Local Transport Strategy diagram shows, a key part of this process is consultation. We want to encourage as many people as possible to engage with this strategy to ensure we capture the needs of the people of East Dunbartonshire, as well as developing effective partnership working with key transport organisations and providers.

This round of consultation on the Transport Options Report provides an opportunity for the community to help steer the future of transport in East Dunbartonshire.

There are several ways to contribute to this consultation and details are provided at the back of this booklet. Please let us know your thoughts on the contents of the Transport Options Report - including all of the options and any you believe are missing.

The Transport Options Report sets out preferred and alternative options that are applicable to the whole area and details options for individual community areas. This booklet features the options for Lennoxtown, Milton of Campsie, Haughhead and Clachan of Campsie.

Transport Planning Objectives

Following an extensive review of evidence including transport policy, transport data and previous public consultations, the following Transport Planning Objectives were derived which deliver overall objectives for the Local Transport Strategy to deliver.

1. Increasing modal shift towards more sustainable modes of travel for both travel to work/study and leisure trips
2. Reducing inequality by providing high quality access for all
3. Reducing emissions through reduced vehicle mileage in East Dunbartonshire
4. Facilitating sustainable economic growth by improving connections across our boundaries and between our communities
5. Improving health by increasing walking and cycling rates
6. Improve safety on all modes of transport.

East Dunbartonshire Area Wide Transport Options

Active Travel

These actions are carried forward from the 2015-2020 Active Travel Strategy including infrastructure and behavioural change actions. The infrastructure actions include creation of an East Dunbartonshire circular walking and cycling route.

The behavioural change actions include actions designed to encourage greater levels of walking and cycling in East Dunbartonshire including for trips to school, work and leisure facilities.

Lennoxtown, Milton of Campsie, Haughhead and Clachan of Campsie

Transport Options

Public Transport

Preferred	Alternative
<p>Work with operators and SPT to ensure continuation of X85 service from Campsie Glen to Glasgow</p> <p><i>This is an important service which connects more rural areas of the authority to Kirkintilloch and Glasgow. While the powers for provision of bus services, commercial or subsidised, generally lie with operators and SPT, working with operators and SPT can help to ensure discussions regarding the continuation of this service include the Council.</i></p>	<p><i>No reasonable alternative - as the powers for provision of bus services, commercial or subsidised, generally lie with operators and SPT, the Council is unlikely to be able to provide an alternative service, should this be withdrawn.</i></p>

Town Improvements

Preferred	Alternative
Deliver transport-related actions in Lennoxtown raised through the ‘charrette’ process and outlined in the Lennoxtown Place Plan	No reasonable alternative - work is ongoing to deliver improvements that were raised through the charrette process
