#### **How will Your Information be used?**

Your Information will be used to help administer efficiently and appropriately the Single Person Discount as part of the Council Tax regime.

We will use a combination of Your Information, third party data sources and specialist validation services to:

- Reaffirm the Single Person Discount for genuine claimants efficiently and accurately;
- Remove ineligible or erroneous claims and increase revenue for the Council;
- Provide 'fairness for all' citizens so that those who are paying the correct level of Council Tax are not subsidising their fellow citizens who are erroneously claiming the discount.

In order to do this we will pass Your Information (such as account number, name, property address and mailing address) to a third party who specialise in the provision of revenue and benefits software and who will deal with the processing work to validate the provision of Single Person Discounts for the Council.

Your Information will then be passed to a credit reference agency who will conduct a data matching exercise against a variety of data sources.

These sources are drawn from consumer credit agreements, previous credit applications, the electoral register, address links where the person gives a forwarding/previous address to a lender, and mortality data (taken from deaths register, insurance records etc).

The Council is then provided with a record detailing the likelihood of whether there are additional people linked to a property which may mean Single Person Discount is not applicable. A list of is also generated detailing adults who are associated with a property.

The list details:

- the names and date of birth of adults linked to the property in receipt of the Single Person Discount;
- the first and last transaction date of any history of that person linked to the property; and
- an occupancy score which gives a sliding scale on the strength of the data.

The inclusion of your information in this process does not mean that you or any specific member of your household is under suspicion. It is simply a process undertaken by the Council to protect the funds it administers and ensure the appropriate allocation of benefits and resources in accordance with its legal requirements.

Where anomalies are detected in the data from the credit reference agency this indicates that there may be an inconsistency that requires further investigation. No assumption can be made as to whether there is fraud, error or other explanation until an investigation is carried out.

### **What is the legal basis for us to process your data?**

The legal basis for processing Your Information is:

- Our legal obligations under the following legislation:
  - The Local Government Finance Act 1992 (to levy and collect Council Tax);
