Commenter Type: Member of Public

Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: Having read and attended meetings about the proposed Whitegates site, and considered the mitigating use of the existing site to create suitable replacement greenspace, I am satisfied that the site is the correct choice, and I would like to submit my support for it. I hope that whilst there is a more obvious presence on the protesting side, (which can be intimidating to those of us in support of the build, with some not feeling able to put their support out in public) that the fact that there are also many residents in the area in favour of the site and build will also be put forward. As parents, we are hugely concerned that our children will have a suitable facility to learn in, without further delay. I have reviewed the plans, and think the facility looks like a suitable, modern place for learning. I've been satisfied that the concern about soil toxins has been dealt with, and that the build will ensure a safe and excellent place for our children to learn in the (hopefully not too distant) future.
