Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: From previous reports the ground does not appear to be safe for a build of this kind. The land should be reconditioned to make it safe regardless of any school building works; so to use the land works as a reason in favour for this site should be instantly disregarded.

The costs appear to have spiralled beyond anything that anyone would consider reasonable, and this seems to be disproportionate and inconsistent with approaches taken across other parts of the council area.

The approach not to rebuild on the current school site appears to be inconsistent with the council approach on other school sites, without any evidence to justify this change in approach from what I have seen.
