Commenter Type: Neighbour

Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: I object to losing the green space at Whitgates for the purpose of a secondary school and the current site of Lenzie academy then sold for a premium rate to house builders. The proposal plans show a dreadful system to entering the school and leaving children crossing an already extremely fast driven road. So children will be unsafe. The green space is necessary for the huge volume of homes that have been build in the last 15 years. This supports wildlife and mental health of residents. The current site is apple to build a new school on and this is unacceptable proposal.
