Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: I formally object to this application as this proposed development will:

- Significantly increase traffic impact, noise and pollution in what is currently a quiet residential area. Middlemuir Road and surrounding streets will become the desired route for access to the new school. The proposed main entrance will be ignored in favour of the easier option to drop off in local residential streets.
- This increase in traffic in Middlemuir Road and surrounding streets will result in an unacceptable detrimental impact to road safety with respect to pedestrians, cyclists and road users, both current users and the expected influx of new users.
- The open space, which is an extremely popular area used by walkers, runners, and dog-walkers, will be a drastic loss to the area and environment. Loss of further trees and grassy areas will irreversibly impact wild-life and could result in an increase in flood risk.
