Commenter Type: Member of Public

Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: The new school should be built on the current site as there is no reasonable argument against it. Whitegates park is one of few remaining green spaces in the area and the council proposal to replace this with a park in lenzie is ridiculous, it's hardly going to be of use to the people who currently use the park. There has also been plenty of historical issues with the land which have prevented previous development which now seem to just be ignored because it's convenient for those in the council who seem to be determined to push this through regardless of public opinion. The traffic/parking in the area is already an issue (particularly due to the leisure centre) and despite the proposals indicating plans for drop offs etc this is frankly wishful thinking on the councils part as its obvious parents will simply use whatever route/location for drop offs that are convenient for them which will impact local residents negatively.
