## Comment Details

Commenter Type: Neighbour

Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: While completely agree that a new school needs to be urgent built this is not the right site. Objections based on environmental impact of destroying current habitat, no longer having the school in Lenzie as this proposed site is in Kirkintilloch, traffic impact around the surrounding area, and there is no firm legal commitment that the site of the current school will not be used for housing. The lack of open and transparent consultation with local community is another reason for my objection. Dialogue is needed about the size of the new school and best use of East Dunbartonshire council tax budget.
