Subject: Proposed New Lenzie Academy Planning Application TP/ED/26/0104

Dear Sirs

I have previously attended open days concerning the above development and was advised by planning officers that ultimately once plans were formally submitted that given I reside in Middlemuir Road neighbouring the proposed development 'Whitegates Middlemuir Road', I would formally be lettered to advise of any planning application submitted therefore allowing me to comment/object accordingly in line with Statutory consultation.

I noted that the application went live on the 5th March 2026 and only found out recently due to a conversation with another resident, which is shocking.

I am now very concerning that the Statutory Consultation process is flawed and not being followed correctly to allow a fair representation from local residents, who are going to be hugely impacted, if this development goes ahead.

I also believe there are many other residents neighbouring/bordering this proposal who have also not been consulted which is very poor and must be addressed as soon as possible.

Could you confirm how many other properties have not been notified by letter prior to the above application going live on the 5th March 2026 and if the Statutory Consultation Process has now failed in this instance and the way forward.

Regards

[REDACTED]
