Commenter Type: Member of Public

Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: I object to the plan for Lenzie academy to be built on white gates park for the following reasons -

The environmental impact - loss of green space used daily and all year round by the community, the loss of trees and wildlife, increased traffic and congestion to the area the pollution and noise that will bring not to mention the removal of access to nature cycle paths, walkways and non traffic routes for pedestrians, families and dog walkers, the increase in traffic could potentially be a danger to local residents.

The fact that this has previously been rejected for a school due to the toxicity of the land and there is a lack of consideration or reporting on the disruption of this land to locals health and the wildlife! The next point in the way the council are pushing this through despite the increase in costs due to the toxicity of the land!
