Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: We bought our house specifically because of the school's current location. My son is due to start secondary school in 2028 and there is absolutely no way we will allow him to walk to the new site alone which now means I need to take a total of one hour and twenty minutes from work each day to take him and bring him home as we don't drive. He will also no longer be able to come home at lunchtime. This is unacceptable. Moreover, the lane to the site is unacceptable dangerous, having walked it with a burn running through and no safety barriers. There are ditches that are easily fallen into along the path and the safety of my child is a huge concern. Most importantly, however is the cancerous contamination in the ground. I have listed both parents to cancer and putting my child at risk is wholly unacceptable! This school is costing far more than it would to be built on the current site and now our council tax is set to rise as a result of the overpriced proposal of 138 million. We already live hand to mouth as civil servants and you're building a school in a location no one wants. No one wants to lose Whitegates Park. The planning of this school has been underhand and devious all so the land can be sold to property developers under the guise of a new park. Why are we destroying one park to build a new one?! One that will be sold off in the future. Destroying wildlife that should be protected. I one hundred percent object to this project!
