Subject: The Proposed Lenzie Academy at Whitegates Park.

Dear Sir/Madam,

Should EDC obtain planning permission for the new Lenzie Academy at Whitegates Park, I would be extremely disappointed if the trees [REDACTED] are removed. Those trees protect my property from noise and light pollution, protect my property from strong winds which could make my house colder. They are also a good method for creating soil stabilisation and taking excessive water from the ground since the area is known to be saturated. The trees are well established habitat for squirrels and bird life and therefore removal of the trees would be detrimental yo both myself and my neighbours.

I look forward to hearing from you.

Regards

[REDACTED]
