Commenter Type: Member of Public

Stance: Customer objects to the Planning Application

Comment Reasons:

Comment:1. The address for the application is incorrect .

Whitegates park has always been on every map that is available to the public . address as monkland ave, Kirkintilloch , not as stated in this application.

In recent years this project has been referred to in reports by using the address as Initiative road, Kirkintilloch. as per the reports from contractors .

2. Of the 110 documents that have been attached there are glaring errors .

For example one report has information that is incorrect and appears to have been a cut and paste from another document due to the wording used.

This means that wholly inaccurate information has been lodged with this planning application. this report is very crucial to the whole project.

3. The application is therefore invalid due to the incorrect address being used. the ceo of edc admitted that the park is not in lenzie and in fact is in kirkintilloch . so why are planning moving the address to lenzie? who is incorrect ?

4.The glaring basic error on one of the reports, means the application is not correct and thus places huge doubt as to what else has been provided that is factually wrong going forward .
