Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: I strongly object to the plan as I know the land has been considered unsafe due to toxic chemicals, and that is still true. It means a huge unnecessary cost to the tax payer to fix it, and that is ridiculous and wasteful.

There is absolutely nothing wrong with using the original school site.

The other thing is the destruction of green space. What happened to protecting this park under the Open Space Plan?

There are many mature trees and many wildlife species that live in this park.

Hundreds of people use the park regularly including myself.

The proposed building is too high and will ruin the look of the whole area, to say nothing of the severe traffic congestion it would cause in the surrounding streets.

These streets are simply not built to accommodate the sheer number of cars and would really be a nightmare for local residents.

It's the only green space available to many local people which includes elderly people who cannot drive or travel further. It's also essential for the mental health of everyone old and young. For many reasons this plan is ill conceived and is a very bad idea
