## Comment Details

Commenter Type: Neighbour

Stance: Customer made comments neither objecting to or supporting the Planning Application

Comment Reasons:

Comment: Reviewing the plans there is no clear link for the public to access across the park to the new proposed pedestrian crossing toward Aldi and the Bothlyn burn. The A806 Initiative Road is already a community divide, this seems like an oversight to ensure that a path is built to allow residents to walk directly to Aldi and beyond from Middlemuir. There are well used informal paths already in the area. As a minimum this connectivity would provide easier access to the dog walking area along the Bothlyn Burn, offsetting a reduction in amenity for local residents. In the plan there is no public access around the school to the A806 pedestrian crossing. Please address this by adding a path alongside the fenceline from both the line to the east but also from the west side at Parkview Court. Please use this opportunity to IMPROVE PUBLIC CONNECTIVITY and benefit the community. this seems ver short sighted, and you will not stop people walking these routes as they are desire lines - place a path on the public side of the fence.
